## **2025 Edmonton Regional Heritage Fair In-Person Fair Information Package**

The [Edmonton Regional Heritage Fair \(ERHF\)](#) is like a Science Fair but for Social Studies. It is an opportunity for students from grades 4 through 9 to research, write, and present projects on a topic in Canada's history, geography, culture, or heritage. We encourage students to pick a topic that interests them and aim to foster curiosity and an interest in Canadian history and heritage.

On the day of the fair, as a demonstration of learning, students exhibit and present their projects to 3 or more judges from the community. Written feedback is provided to the student on the day of the fair. Since the fair is about celebrating student success and curiosity, all students will receive a certificate recognizing their participation in the fair. Project scores will be provided to the teachers at a later date.

See the information below regarding special awards from our partner organizations.
